No. 275.—In their Judicial Department Notification No. 340, dated 1st December 1924, published at page 1450 of Part I of the *Fort St. George Gazette*, dated 9th December 1924, the Government empowered the Railway Police Sergeant at Danushkodi to issue temporary licences in Form XVII of the Indian Arms Rules, 1924, to bona fide travellers arriving there by sea when the latter were not in possession of a regular licence to cover firearms forming part of their baggage. In view of the present political situation in the country the Government consider it undesirable to admit firearms into this Presidency without a proper licence issued by a duly constituted authority in British India. They therefore suspend with effect from 1st October 1930 and until further orders, the power conferred on the Railway Police Sergeant at Danushkodi to issue such temporary licences. From and after that date travellers entering British India via Danushkodi without a regular licence will be required to deposit their firearms with the customs authorities there. They are therefore warned that to avoid this inconvenience they should inform their shipping agents beforehand of the weapons they desire to import and instruct them to obtain a temporary licence in Form XVII issued by the District Magistrate of Ramnad. On arrival at their destination they should take out a regular licence in the ordinary way.

Acting Chief Secretary.

DEPARTMENT OF AGRICULTURE.

COTTON CROP OF 1930-31.

INTERMEDIATE MONTHLY REPORT.

Last year's crop.—In the Central districts and the south, the second or summer pickings of the 1929-30 crop were fairly satisfactory but karunganni in Coimbatore was affected by drought to some extent.

Current year's crop.—The main season for sowings is not yet over in most parts of the Presidency.

In the Ceconadas tract, the condition of the early sown mixed crop has been affected by drought in August. In parts of the Deccan, the mungari or the early sown cotton suffered for want of subsequent rains.

Madras, 14th September 1930.

SUGARCANE CROP OF 1930.

INTERMEDIATE MONTHLY REPORT.

The condition of the sugarcane crop continues to be satisfactory on the whole and the normal yield can be expected if the present conditions continue.

Madras, 9th September 1930.

INDIGO CROP OF 1929-30.

[On an average of the five years ending 1928-29, the area under indigo in the Madras Presidency has represented 31·7 per cent of the total area under indigo in India.]

The area sown with indigo in the Madras Presidency up to the end of August 1930 is estimated at 35,800 acres or 8 per cent in excess of the last year's area, viz., 34,600 acres. The increase in area is mainly in the Deccan and Nellore where the use of the crop as green manure is increasing. In Kistna, Chingleput, South Arcot, and North Arcot, the area fell by 4,500 acres.

2 The condition of the crop is generally satisfactory.

3. Figures are not available about the quantity annually converted into dye or ploughed into wet lands as manure. But it is known that the crop is mostly used as green manure except in parts of Cuddapah where it is converted into dye. If the entire crop be converted into dye, the yield would work out to about 6,760 cwt. against 8,000 cwt. estimated at the corresponding date of last year.

4. Figures by districts are given below :—
